N/A

Detailed Description of Services:

MyAdultDayCare, LLC is an integrated platform for Adult Day Services. This EHR/Practice Management Software is cloud based and secure. The platform is device independent and our software works on laptop, desktop, tablet and Android and iPhones. Support, training and implementation is provided. Our cloud-based practice management platform for Adult Day Care Services helps provide better quality care while improving their daily operations through consistent, shared and accessible client data. Our integrated platform also helps centers stay connected with practitioners, pharmacies, vendors and even billing.

From care service and medication management to mitigating risk, ensuring compliance and strengthening relationships, MyAdultDayCare client-centered platform provides a view to all involved in care delivery.

Capabilities/Experience of Owners or Principals:

Over 40 years of experience in both technology start-ups and Health Information Management.

Examples of Current Work:

We have installed MyAdultDayCare Software throughout the country with success and satisfaction.

Process for Client Engagement:

Demos, webinars, and on-site visits.

Reference Contact Info: (3)

Alok Patel, Owner-Monroe Adult Day Care, Nancy Ferrigno, Corporate Compliance Nurse-First Healthcare and Savan Patel, Owner-New Life Adult Day Care

Quotes from Clients:

"We have had great success with MyAdultDayCare in our three large centers in New Jersey. It is user-friendly for the nurses, staff, and directors. It is so time saving for our census and transportation needs, too. The support and training has been exceptional and we can not say enough good things about the reliability and effectiveness of this program. As a compliance person, I especially appreciate the numerous compliance reports it offers us."
Nancy Ferrigno, First Healthcare
