Service Category:

Software Technology

Years in Business:

RTZ was founded in 1977. During the past four decades, RTZ has evolved from a handful of academics working out of a small office to one of the largest and most innovative companies developing software for case managers and adult day providers. In the 1990s, RTZ began introducing adult day centers (most recording services with pen and paper) to PC-based software, allowing them to more efficiently collect data and more effectively track outcomes. Customers reported significant cost savings. During the past 20 years, RTZ's commitment to serving the adult day service industry has never wavered. As other products have trickled onto the market, RTZ has continued to invest in CADCare to keep it ahead of the competition. Today, more adult day centers depend on CADCare than any other software product.

Fee Range Per Hour:

CADCare is a SaaS model (System as a Service), which means the system use, updates and technical support are all included in one monthly fee. An hourly rate for the CADCare system is not applicable.

CADCare by RTZ Systems

Detailed Description of Services:

CADCare helps hundreds of adult day centers across the country run smoothly.

As a 100% cloud-based solution, users simply need a computer or mobile device with an internet connection and a web-browser. This enables a frictionless implementation and future scalability. RTZ employees provide all configuration and support services to get you up-and-running.

CADCare is a complete, integrated system built on the latest technologies that includes everything your organization to succeed. The system is fully HIPAA-compliant.

CADCare centralizes and automates data recording and reporting activities – from prospect management to billing – reducing data errors, omissions, and duplications while eliminating paper-based forms. Operational processes that use to take hours now take minutes, allowing many CADCare clients to generate a sizable return on their investment.

Core functions include:
Marketing & Intake
EHR
Assessments
Medications (and electronic MAR)
Flow Sheets
Care Plans
Progress Notes
Scheduling
Attendance
Billing
Accounts Receivable
Reporting

Capabilities/Experience of Owners or Principals:

Our company motto encapsulates our corporate culture: "Systems that work. People who care." RTZ employees are passionate about what they do and bring a wealth of industry experience to the table. Our management team for CADCare has an average of 15 years of Adult Day Services experience. Put simply, RTZ offers its clients a level of capability and staff continuity rarely seen in the software industry today.

Examples of Current Work:

Agencies in more than 30 states (and one territory!) use RTZ software. We serve clients of all sizes – from small standalone centers to large multi-site enterprise-level implementations. No project is too big or small! We would welcome the opportunity to learn more about your organization and provide references for similarly-sized CADCare clients.

Process for Client Engagement:

We typically start with a casual conversation to learn more about your center and introduce you to CADCare via a webinar demonstration. Please visit www.CADCare.com to sign-up for a web-based, no-pressure demo, or contact us directly at info@cadcare.com or by phone at 510.986.6700 for more information.
