

SPECIAL ANNOUNCEMENT

NADSA Establishes National Coronavirus Task Force

Dear NADSA Members,

In order to better serve the ADS Community during this pandemic, NADSA has created a task force of leaders in our field to ensure we provide Members with the information, tools and support they need. The goals are:

- Monitor national issues related to the virus as they relate to our community and serve as a clearing house to communicate information and state initiatives through our website, virtual meetings and social media;
- Maintain connections in the long-term care community so that we form and implement partnerships to strengthen resources to our Centers;
- Serve as a national voice in advocating for resources and policies that ensure our industry remains strong in the face of uncertainty; and
- Communicate consistently with our Members on what they might undertake in their communities.

More information will follow soon, including information on a virtual Town Hall Meeting and a special Facebook group for sharing. If you are not a member of NADSA FB community join here: <https://www.facebook.com/NADSA2/>.

For updated information about the coronavirus as it relates to Adult Day Services, go to <https://www.nadsa.org/important-information-on-coronavirus/>.

Sincerely,

Donna Hale
Executive Director
National Adult Day Services Association
