

Adult Day Services Annotated Bibliography

In November 2019, NADSA's Research Committee commissioned a project to develop an annotated bibliography using the AP format of all the research in Adult Day Services for the last ten years. The purpose of this project is to create and retain a resource for current NADSA Members and academic partners to continually add to the list as new reports are published. Additionally, an infographic was developed based on the research conducted for this project: [ADS Infographic](#).

The bibliography is posted in Members Only section under Research. For non-members, it is available for purchase in NADSA's [Online Store](#) for \$29.99.
