

---

Dear Adult Day Professional,

We need your assistance to ensure the CDC adds Adult Day Service Centers/Adult Day Health Centers to the list of priorities for the COVID-19 vaccine. With thanks to SarahCare senior staff, we have a draft letter for your use and an email contact form link to send your letter to the CDC. The letter can only be 2,000 characters in length, so any edits you make must adhere to that limit. **The highlighted sections should remain in your letter based on the conversations with the CDC.**

It is imperative that you submit your letter today if possible to show the CDC that Adult Day Service Centers are a priority in serving our communities.

Click [here](#) to access the CDC letter. Here is the link to submit your letter:

<https://www.cdc.gov/cdc-info/ask-cdc.html>

Thank you for your support and if you have any questions, please contact Lance Roberts at [membereducation@nadsa.org](mailto:membereducation@nadsa.org).
